Subject: San Jacinto Fish Sample Splits - Task Order 0130-RSBD-06ZQ
Date: Friday, April 15, 2016 5:18:00 PM
Attachments: [SJRWP Tissue SAP Addendum 2 w-o Appendices 23 Mar 2016-2.pdf](#)

Brian,

As we discussed, please arrange for collection and analysis of fish tissue sample splits as per Sections 3.3.2 and 3.5 of the Work Plan, Revision 01 (Task Order 0130-RSBD-06ZQ, Contract EP-W-06-004). A total of 1 split fish tissue sample from the San Jacinto River Waste Pits Site will be required for this event, with analysis for dioxins and furans. The sample will be a composite of killifish. The sample to be split is sample number SJTTR3. Sample collection is planned for the week of April 18, 2016.

In addition, please arrange for field oversight of the Potentially Responsible Parties' fish tissue sampling activities in accordance with Section 3.3.1 of the Work Plan. I am attaching the fish tissue sampling workplan (without appendices) for your information.

Please let me know if you have any questions on this.

Regards,

Gary Miller
